OVERVIEW

ECM2's Station Manager is the ultimate station management tool on the market today. It tracks all your incidents, personnel and apparatus with ease. When an incident comes in to a station, Station Manager can display the responding personnel and apparatus responding to a scene. Immediately, you will see on your screen the number of vehicles and members that have responded and that are on their way to the incident.

You can view the location of the incident as well as driving directions and call information that be easily edited. Incident running time starts as soon as the incident is received.

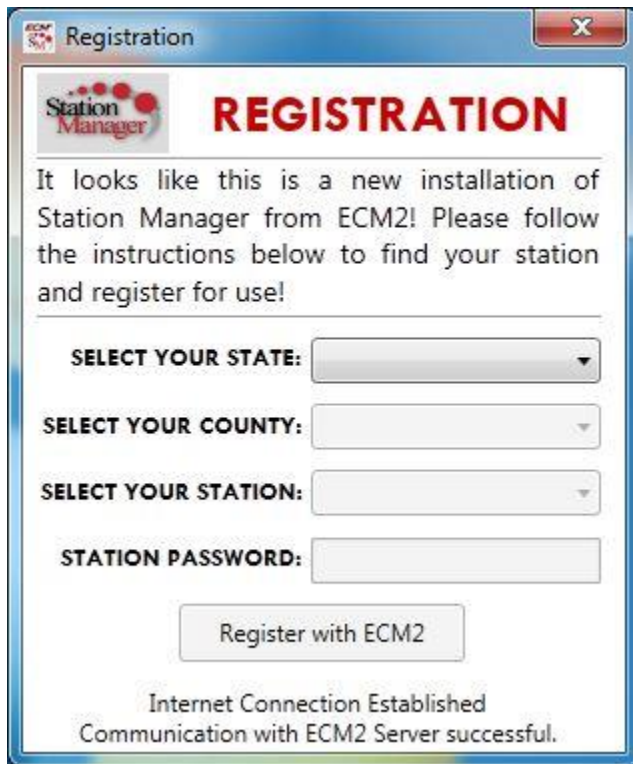

Emergency notes can also be created and posted in Station Manager so that obstacles that may hinder an immediate response can be known ahead of time in order to help in better response time or re-routing.

Calendar events can be created for training events, fund drives, golf outings, Fire hall events, boot drives, etc. You can set the time-to-live on each event so... when an event is over, it will remove itself from the calendar.

Many miscellaneous features include... Incident Photo Display, Member Credentials, Area Weather, Image Slide Show and the ability to set certain preferences on certain features.

You are able to drag and move your windows and pop-ups by clicking on the "title" of the window or pop-up and drag to where you want on the screen.

REGISTRATION

Registration

REGISTRATION

It looks like this is a new installation of Station Manager from ECM2! Please follow the instructions below to find your station and register for use!

SELECT YOUR STATE:

SELECT YOUR COUNTY:

SELECT YOUR STATION:

STATION PASSWORD:

Register with ECM2

Internet Connection Established
Communication with ECM2 Server successful.

When your account is created by ECM2, you will be given a password and possibly other important information for Station Manager . Please keep this information handy and in a safe place. When you first launch “Station Manager” you will be prompted by the registration screen.

You should have this information handy before you register:

1. Your State
2. Your Country
3. Your Station name
4. Your Password

After a successful log in, you will be directed to the “Current Incident” of Station Manager. (See page 7)

MAIN SCREEN

Properties of the MAIN SCREEN are the Photo area (slide show), Calendar Events area (on the right side of the screen) and an Emergency Notes area (located at the bottom of the screen). Also notice at the top of the screen Station Manager's Menu tabs starting with the MAIN Screen, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, ALL INCIDENTS and ADMIN.

Application Tabs or areas

Emergency Notes will be displayed here and will always scroll at the bottom of the screen (right to left).

Images can be loaded to create a slideshow. You can turn the slide show feature on and off or select the number of images you would like to use in the Admin Section under "Display Screen"

Calendar Events notifications are located here. Multiple events will rotate newest to oldest.

To set EMERGENCY NOTES: Go to the Admin Section and select the "EMERGENCY NOTES" button. For information see the Admin Section.

To set the PHOTO SLIDE SHOW: Go to the Admin Section and select the "DISPLAY SCREEN" button. Turn the Slide show "ON" and select a maximum number of images you want to display. Then (in Admin) choose the "INCIDENT IMAGES" button and load your images to your slide show from your computer ("From File") .

To set CALENDAR NOTES: Go to the Admin Section and select the "CALENDAR NOTES" button. For information see the Admin Section.

CURRENT INCIDENT SCREEN

The Current Incident page will display all the incident data including; incident status, responding apparatus, time of call, station name or #, the incident running time, water availability, driving directions, incident location on a map and names and credentials of the responding officers.

The MAIN SCREEN at a glance...

WEATHER

Station Manager has included with it a page for you to gain immediate access to your station's local weather. Just enter your "ZIP CODE" in the text field and hit "GO".

The WEATHER SCREEN at a glance...

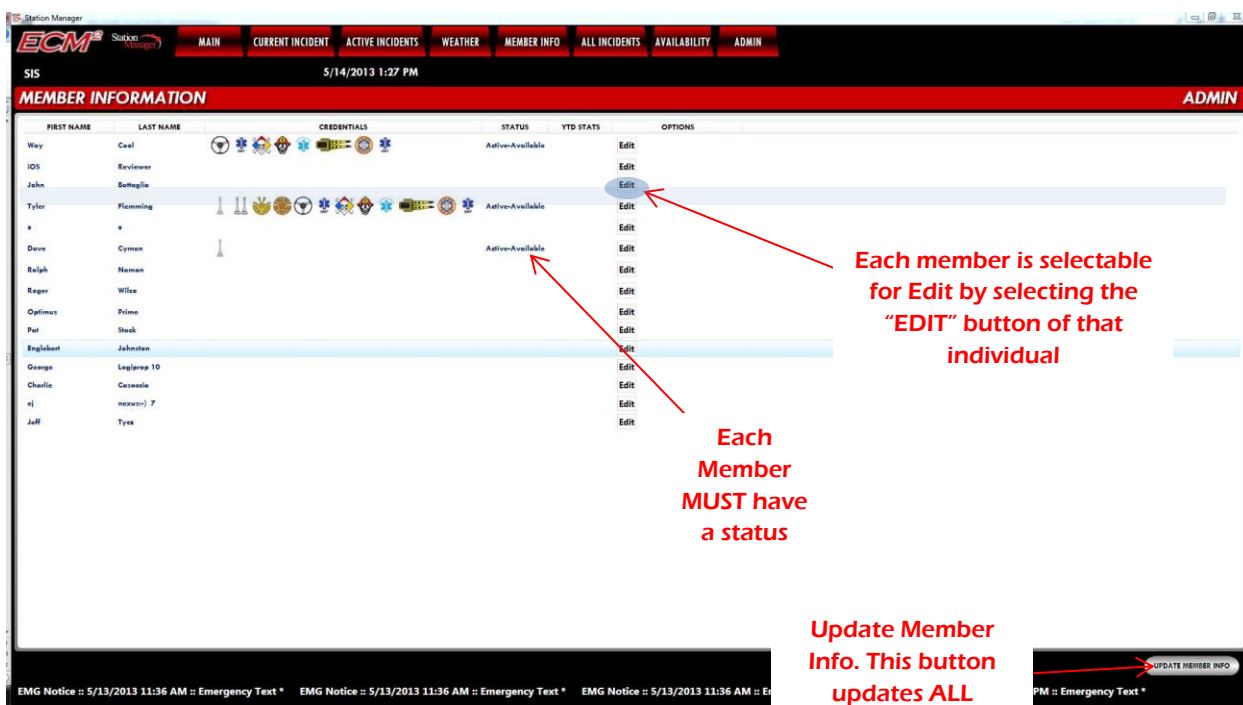

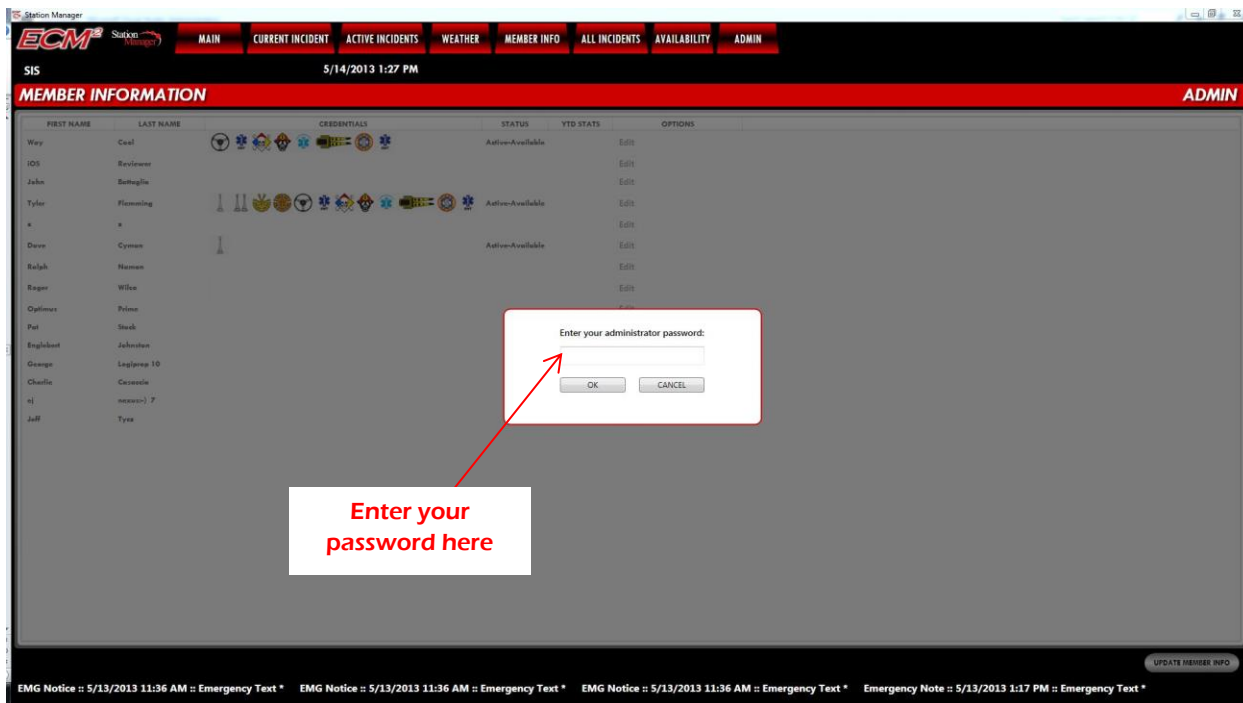

The screenshot shows the National Weather Service website interface. At the top, there is a navigation bar with links: MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, ADMIN. Below this is the NWS logo and the text 'NATIONAL WEATHER SERVICE NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION'. A secondary navigation bar includes: HOME, FORECAST, PAST WEATHER, WEATHER SAFETY, INFORMATION CENTER, NEWS, SEARCH, ABOUT.

The main content area features a 'Local forecast by' section with a search box for 'City, ST or ZIP code' and a 'Go' button. A red callout box with the text 'Type in your "ZIP CODE" here' points to this search box. Below this is a weather forecast for '2 MILES W NIAGARA FALLS NY'. The current temperature is 52°F (11°C). The forecast includes a 7-day outlook with icons and temperature ranges for each day. A detailed 7-day forecast section follows, providing text descriptions for each day. At the bottom, there is a map of the location and a disclaimer.

The Availability screen presents to you all the responders who are currently able to respond to calls. You may change a user's availability via Call Manager website. Available responders are the only personnel who may be assigned to apparatuses during a call.

ALL INCIDENTS

The All Incidents screen displays a list of "All Incidents". With each incident, the following information is displayed: Incident Number, Date, Time, Status and Incident Details. You can "DELETE" an incident or set the incident to be the "CURRENT INCIDENT".

The "Set As Current" button will set the incident in that row as the current incident that displays on the Current Incident Details screen. This makes it easy switching between incidents. You will also be able to view who has responded on that call, personnel and apparatus.

You may delete the incident by clicking on delete for your instance of Station Manager only. You will be prompted with your Admin password before deletion.

The Status indicates the stage of which the incident is at e.g. Active, Closed, Exported, etc.

ADMINISTRATION

The ADMIN section is the heartbeat of the application. You will be able to control many features of Station Manager from this page. You will need your password to access this information.

The screenshot displays the 'Station Manager' web application interface. At the top, there is a navigation menu with tabs for 'MAIN', 'CURRENT INCIDENT', 'ACTIVE INCIDENTS', 'WEATHER', 'MEMBER INFO', 'ALL INCIDENTS', 'AVAILABILITY', and 'ADMIN'. The current page is the 'ADMINISTRATORS AREA', which is highlighted in a dark red header. Below the header, the page is divided into several sections with various settings and controls:

- APPARATUS**: Includes a 'VIEW/EDIT' button.
- EMERGENCY NOTES**: Includes a 'VIEW/EDIT' button.
- CALENDAR NOTES**: Includes a 'VIEW/EDIT' button.
- DISPLAY SCREEN**: Includes a 'VIEW/EDIT' button.
- INCIDENT SET-UP**: Includes a 'VIEW/EDIT' button.
- MANAGE CREDENTIALS**: Includes a 'MANAGE' button.
- APPLICATION IMAGES**: Includes a 'VIEW IMAGES' button.
- REPORTING**: Includes a 'VIEW/EDIT' button.
- INCIDENT POLLING**: Includes a 'VIEW/EDIT' button, a 'SECONDS' input field, and an 'ENABLED' checkbox.

Other visible settings include 'MAP PROVIDER' (set to 'Bing Maps'), 'STATION LOCATION' (with latitude and longitude coordinates), and 'SCREEN TIMEOUT' (with a 'MINUTES' input field and an 'ENABLED' checkbox). A modal dialog box is overlaid on the screen, prompting the user to 'Enter your administrator password:' with a text input field and an 'OK' button. A red arrow points from the input field to a callout box that says 'Enter your password here.' The bottom of the page shows a status bar with the text 'Emg Notice :: 5/30/2013 3:47 PM :: Emergency Text *' and the version number 'Version: 1.0.0.0'.

The ADMIN SCREEN at a glance...

The screenshot shows the 'Station Manager' interface with a dark theme. At the top, there is a navigation bar with tabs: 'CURRENT', 'OTHER', 'MEMBER INFO', 'ALL INCIDENTS', 'AVAILABILITY', and 'ADMIN'. Below this is a header area with 'Incident Polling' on the left, 'ATORS AREA' in the center, and 'Registered Install ID: sm_188_1_user' on the right. The main content area is divided into two columns. The left column contains menu items: 'APPARATUS', 'EMERGENCY NOTES', 'CALENDAR NOTES', 'DISPLAY SCREEN', 'INCIDENT SET-UP', 'MANAGE CREDENTIALS', 'APPLICATION IMAGES', 'REPORTING', and 'TIME FORMAT'. Each item has a corresponding 'VIEW/EDIT' or 'MANAGE' button. The right column contains configuration settings: 'MAP PROVIDER' (set to Bing Maps), 'STATION LOCATION' (LAT: 43.0943156, LNG: -79.0565025), 'CALENDAR SCROLL INTERVAL' (10 SECONDS), 'SLIDESHOW SCROLL INTERVAL' (18 SECONDS), 'INCIDENT POPUP TIME OUT' (5 SECONDS), 'EMG POPUP TIME OUT' (5 SECONDS), and 'SCREEN TIMEOUT' (30 MINUTES, ENABLED). At the bottom, there are buttons for 'XMPP CHK', 'XMPP RESTART', 'XMPP EXIT', 'BACKUP', and 'RESTORE'. A 'Version: 1.0.0.0' label is visible in the bottom right. Red arrows point from external labels to specific elements in the interface.

CALENDAR NOTES

To set a Calendar Note or Event, click on a date on the calendar and a pop-up will appear. In the pop-up set the time-to-live by entering the start day and time and an ending time and day. You can also enter a Subject as well as your Calendar Note/Event.

These Calendar Events will be posted and rotated on the MAIN Page of the application in the upper right hand corner. They will also be posted on the smart phone apps.

The screenshot displays the 'Station Manager' application interface. At the top, there is a navigation bar with buttons for 'MAIN', 'CURRENT INCIDENT', 'ACTIVE INCIDENTS', 'WEATHER', 'MEMBER INFO', 'ALL INCIDENTS', 'AVAILABILITY', and 'ADMIN'. Below this, the status 'Station 2' and the date/time '11/06/2013 16:00:24' are shown. The main area is titled 'ADMINISTRATORS AREA' and contains a sidebar with menu items: 'APPARATUS', 'EMERGENCY NOTES', 'CALENDAR NOTES' (highlighted), 'DISPLAY SCREEN', 'INCIDENT SET-UP', 'MANAGE CREDENTIALS', 'APPLICATION IMAGES', 'REPORTING', 'TIME FORMAT', and 'INCIDENT POLLING'. The central focus is a 'CALENDAR NOTES' window showing a calendar for June 2013. The calendar has a grid with days of the week as columns and dates as rows. Two events are visible: 'FUND RAISER' on Tuesday, June 4th, and 'GOLF OUTING' on Wednesday, June 12th. A red arrow points from a text box to the 'GOLF OUTING' event. The text box contains the instruction: 'Double Click on a date in the calendar and the Pop-Up will display'. To the right of the calendar, there are input fields for 'LAT' (0943156) and 'LNG' (9.0565025), and a 'Google Maps' dropdown menu. Below these are several 'SECONDS' input fields with values like 10, 18, 5, and 5, and a 'MINUTES' field with the value 30 and an 'ENABLED' checkbox. At the bottom right, there are 'BACKUP' and 'RESTORE' buttons, and a 'CLOSE STATION MANAGER' button. The version number 'Version: 1.0.0.0' is displayed at the bottom right of the interface.

DISPLAY SCREEN

You can set parameters to two (2) separate items (Slide Show and Weather) in the Display Screen area. You can set whether or not you want to use the Slide Show on the MAIN Page and also control the maximum number of slides you want to use (Maximum number is 100 images/preferably low resolution [72dpi]).

The screenshot shows the Station Manager web application interface. The top navigation bar includes links for MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, and ADMIN. The main content area is titled 'ADMINISTRATORS AREA' and displays various configuration options. A modal dialog box titled 'DISPLAY SCREEN' is open, showing the following settings:

- SLIDE SHOW SCREEN
- MAX SLIDE COUNT: 20
- WEATHER SCREEN
- Suppress ECM2 Ads
- VIEW IMAGES FOLDER button
- SAVE AND EXIT button
- CANCEL button

Other visible settings in the background include: MAP PROVIDER (Bing Maps), STATION LOCATION (LAT: 43.0943156, LNG: -79.0565025), CALENDAR SCROLL INTERVAL (10 SECONDS), TIME FORMAT (Military), and INCIDENT POLLING (90 SECONDS, ENABLED).

This feature is default set to display ECM2 ads on your MAIN page.

You can enable suppression of these ads by simply adding photos (6 photos or more). Less than 6 photos will set the default back to displaying all the ads.

Syncs all the images in your images folder to the application

This will open up an explorer to your Images folder

INCIDENT SET-UP SCREEN

Select a sound from the dropdown list and press the speaker button to preview it

Version: 1.0.0.0

MANAGE CREDENTIALS SCREEN

You may use this area to add new credentials and view/edit the existing icons provided by ECM2. You may also delete any icons that are not applicable.

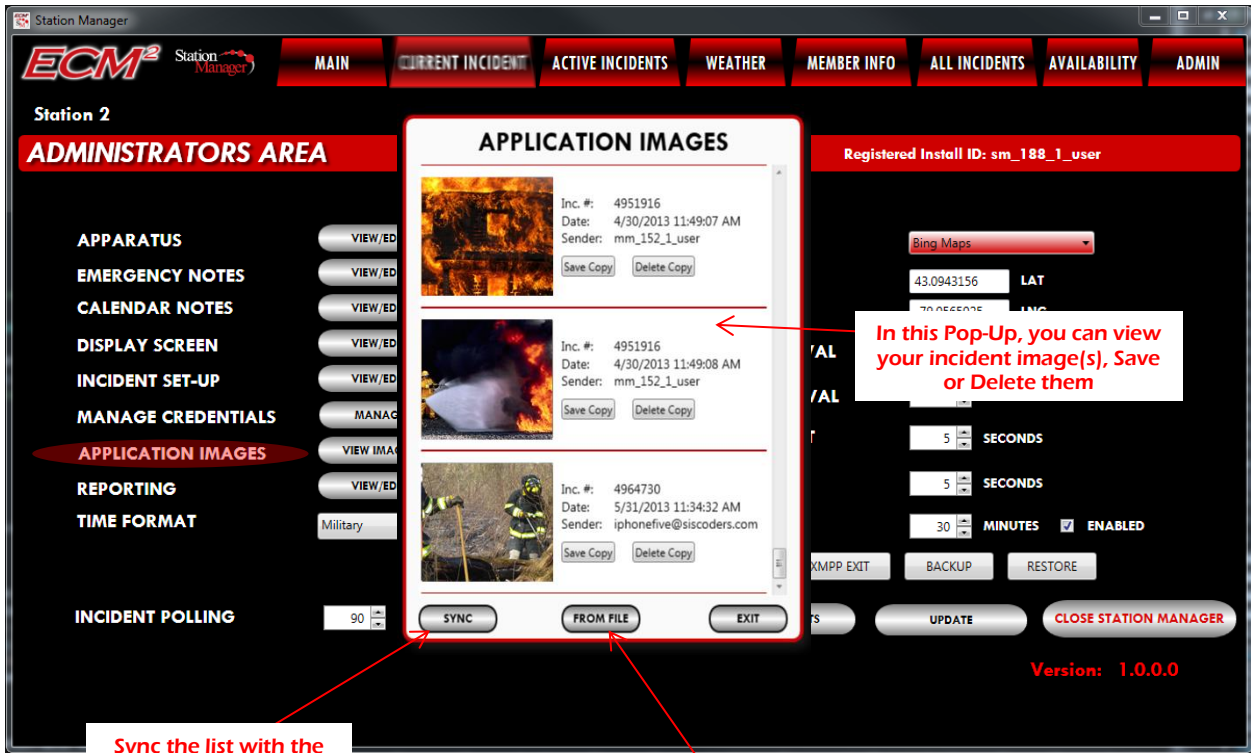

Add New "Credential" Button

Load an icon from file

APPLICATION IMAGES SCREEN

Select Incident images to store or delete.

Sync the list with the incident images from your station

Bring up an explorer to load an image from file into your images folder

REPORTING

This area is not active at the current time but when active you will have the ability to view your reporting data.

The screenshot displays the ECM2 Station Manager web interface. At the top, there is a navigation menu with tabs for MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, and ADMIN. The current page is the ADMINISTRATORS AREA, which is highlighted in red. The interface shows the following configuration options:

- APPARATUS:** VIEW/EDIT
- EMERGENCY NOTES:** VIEW/EDIT
- CALENDAR NOTES:** VIEW/EDIT
- DISPLAY SCREEN:** VIEW/EDIT
- INCIDENT SET-UP:** VIEW/EDIT
- MANAGE CREDENTIALS:** MANAGE
- APPLICATION IMAGES:** VIEW IMAGES
- REPORTING:** VIEW/EDIT (highlighted in red)
- TIME FORMAT:** Military
- MAP PROVIDER:** Bing Maps
- STATION LOCATION:** 43.0943156 LAT, -79.0565025 LNG
- CALENDAR SCROLL INTERVAL:** 10 SECONDS
- SLIDESHOW SCROLL INTERVAL:** 18 SECONDS
- INCIDENT POPUP TIME OUT:** 5 SECONDS
- EMG POPUP TIME OUT:** 5 SECONDS
- SCREEN TIMEOUT:** 30 MINUTES, ENABLED
- INCIDENT POLLING:** 90 SECONDS, ENABLED

At the bottom, there are buttons for XMPP CHK, XMPP RESTART, XMPP EXIT, BACKUP, RESTORE, GET INCIDENTS, UPDATE, and CLOSE STATION MANAGER. The version number is 1.0.0.0.

Time Format

This feature allows you to change your time from Regular time to Military time. Eg. 8:00PM to 20:00.

The screenshot displays the 'Station Manager' application window. At the top, there is a navigation bar with tabs: MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, and ADMIN. Below the navigation bar, the window title is 'Station 2' and the date/time is '11/06/2013 16:46:40'. A red banner at the top of the main area reads 'ADMINISTRATORS AREA' and 'Registered Install ID: sm_188_1_user'. The interface is divided into several sections:

- Left Column (List of Settings):**
 - APPARATUS (VIEW/EDIT)
 - EMERGENCY NOTES (VIEW/EDIT)
 - CALENDAR NOTES (VIEW/EDIT)
 - DISPLAY SCREEN (VIEW/EDIT)
 - INCIDENT SET-UP (VIEW/EDIT)
 - MANAGE CREDENTIALS (MANAGE)
 - APPLICATION IMAGES (VIEW IMAGES)
 - REPORTING (VIEW/EDIT)
 - TIME FORMAT** (Military) - This option is highlighted with a red oval.
- Right Column (Configuration Details):**
 - MAP PROVIDER: Bing Maps (dropdown)
 - STATION LOCATION: 43.0943156 LAT, -79.0565025 LNG
 - CALENDAR SCROLL INTERVAL: 10 SECONDS
 - SLIDESHOW SCROLL INTERVAL: 18 SECONDS
 - INCIDENT POPUP TIME OUT: 5 SECONDS
 - EMG POPUP TIME OUT: 5 SECONDS
 - SCREEN TIMEOUT: 30 MINUTES ENABLED
- Buttons:** XMPP CHK, XMPP RESTART, XMPP EXIT, BACKUP, RESTORE, GET INCIDENTS, UPDATE, CLOSE STATION MANAGER (highlighted with a red oval).
- Bottom Section:** INCIDENT POLLING: 90 SECONDS ENABLED
- Version:** Version: 1.0.0.0

INCIDENT POLLING SETTINGS

This feature defaults "enabled" and is set for 90 seconds. You can alter the setting by a minimum of 45 seconds or the maximum to be 120 seconds. This feature can be disabled by unchecking the check box.

The screenshot displays the 'Station Manager' web application interface. At the top, there is a navigation menu with tabs for 'MAIN', 'CURRENT INCIDENT', 'ACTIVE INCIDENTS', 'WEATHER', 'MEMBER INFO', 'ALL INCIDENTS', 'AVAILABILITY', and 'ADMIN'. Below the menu, the page title is 'Station 2' and the date/time is '11/06/2013 16:46:40'. A red banner at the top of the main content area reads 'ADMINISTRATORS AREA' and 'Registered Install ID: sm_188_1_user'.

The main content area is divided into two columns of settings. The left column lists various configuration categories, each with a 'VIEW/EDIT' button: APPARATUS, EMERGENCY NOTES, CALENDAR NOTES, DISPLAY SCREEN, INCIDENT SET-UP, MANAGE CREDENTIALS, APPLICATION IMAGES, REPORTING, and TIME FORMAT (set to 'Military').

The right column contains the 'INCIDENT POLLING' settings. It includes a dropdown menu for 'MAP PROVIDER' (set to 'Bing Maps'), 'STATION LOCATION' (LAT: 43.0943156, LNG: -79.0565025), 'CALENDAR SCROLL INTERVAL' (10 SECONDS), 'SLIDESHOW SCROLL INTERVAL' (18 SECONDS), 'INCIDENT POPUP TIME OUT' (5 SECONDS), 'EMG POPUP TIME OUT' (5 SECONDS), and 'SCREEN TIMEOUT' (30 MINUTES, with an 'ENABLED' checkbox). Below these are buttons for 'XMPP CHK', 'XMPP RESTART', 'XMPP EXIT', 'BACKUP', and 'RESTORE'.

At the bottom of the settings area, the 'INCIDENT POLLING' section is highlighted in red. It shows a value of '90 SECONDS' and an 'ENABLED' checkbox. A red arrow points from a white box labeled 'Disable' to the 'ENABLED' checkbox. To the right of this section are buttons for 'GET INCIDENTS', 'UPDATE', and 'CLOSE STATION MANAGER'. The version number 'Version: 1.0.0.0' is displayed in the bottom right corner.

MISCELLANEOUS SETTINGS

This area features a number of different settings that you may change to suit your personal preferences and also assist in optimal performance from Station Manager.

The screenshot shows the Station Manager web interface. At the top, there is a navigation menu with buttons for MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, and ADMIN. Below the menu, the page title is 'Station 2' and the date/time is '11/06/2013 16:46:40'. The main content area is titled 'ADMINISTRATORS AREA' and contains a list of settings sections on the left: APPARATUS, EMERGENCY NOTES, CALENDAR NOTES, DISPLAY SCREEN, INCIDENT SET-UP, MANAGE CREDENTIALS, APPLICATION IMAGES, REPORTING, and TIME FORMAT. Each section has a 'VIEW/EDIT' button. The 'TIME FORMAT' is set to 'Military'. On the right, there is a large red box containing settings for MAP PROVIDER (set to Bing Maps), STATION LOCATION (LAT: 43.0943156, LNG: -79.0565025), CALENDAR SCROLL INTERVAL (10 SECONDS), SLIDESHOW SCROLL INTERVAL (18 SECONDS), INCIDENT POPUP TIME OUT (5 SECONDS), EMG POPUP TIME OUT (5 SECONDS), and SCREEN TIMEOUT (30 MINUTES, ENABLED). Below this box are buttons for XMPP CHK, XMPP RESTART, XMPP EXIT, BACKUP, and RESTORE. At the bottom, there is an 'INCIDENT POLLING' section set to 90 SECONDS, ENABLED, and buttons for GET INCIDENTS, UPDATE, and CLOSE STATION MANAGER. A red arrow points to the 'EMG POPUP TIME OUT' setting, and a callout box states: 'You can set each of these functions to your personal preference'.

- The “Map Provider” preference can be set to one of two (2) settings... Bing Maps or Open Street Map.
- The longitude and latitude of your Station Location is set in the Emergency Call Manager account
- Calendar Scroll Interval will set the interval of the rotation of the calendar event.
- Slide Show Scroll Interval will set the interval (in seconds) of the rotation of your photos within the slide show.
- Incident Pop-Up Time Out will control the duration of the incident pop-up screen in seconds before it disappears
- EMG Pop-Up Time Out will control the duration of the EMG pop-up screen in seconds before it disappears
- Screen Time Out will control the amount of time before it returns you to the MAIN screen.

MISCELLANEOUS BUTTONS

These 3 buttons perform 3 different functions.

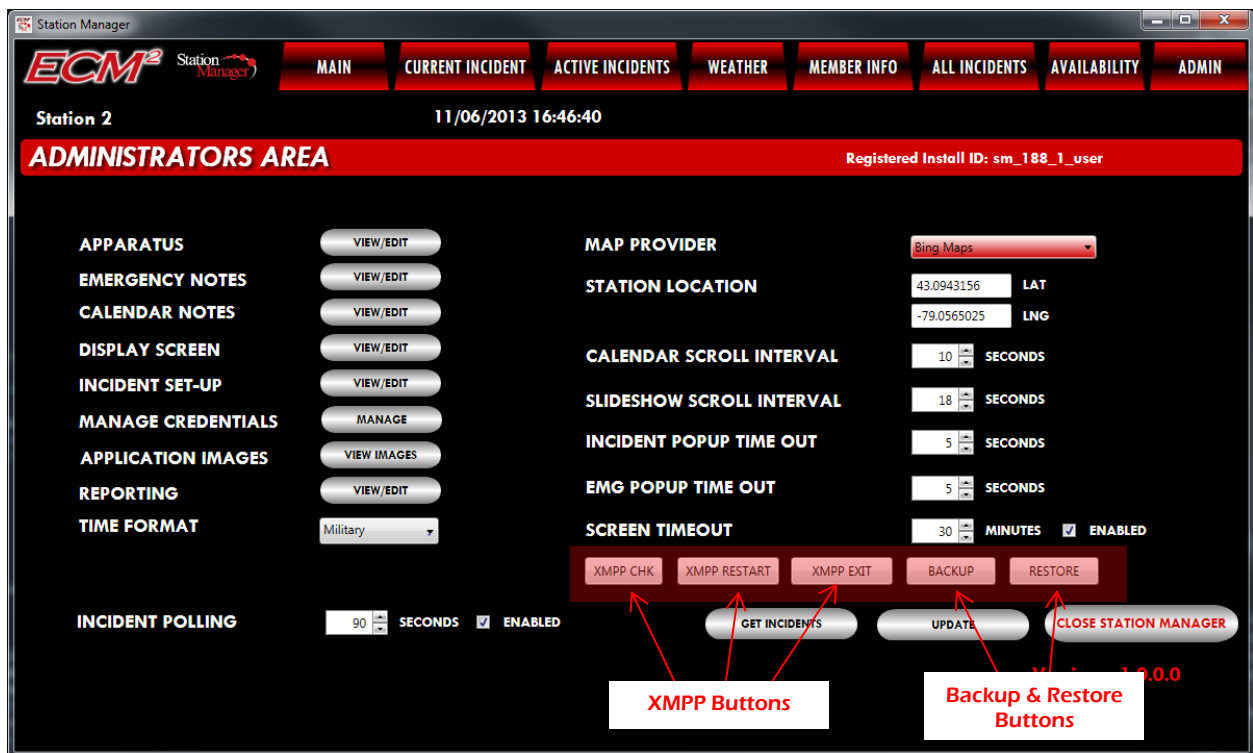

The screenshot shows the 'Station Manager' application window. The title bar reads 'Station Manager'. The main menu includes: MAIN, CURRENT INCIDENT, ACTIVE INCIDENTS, WEATHER, MEMBER INFO, ALL INCIDENTS, AVAILABILITY, and ADMIN. The status bar shows 'Station 2' and the date/time '11/06/2013 16:46:40'. Below this is a red banner for the 'ADMINISTRATORS AREA' with the 'Registered Install ID: sm_188_1_user'. The interface is divided into several sections:

- Left Column:** APPARATUS (VIEW/EDIT), EMERGENCY NOTES (VIEW/EDIT), CALENDAR NOTES (VIEW/EDIT), DISPLAY SCREEN (VIEW/EDIT), INCIDENT SET-UP (VIEW/EDIT), MANAGE CREDENTIALS (MANAGE), APPLICATION IMAGES (VIEW IMAGES), REPORTING (VIEW/EDIT), TIME FORMAT (Military).
- Right Column:** MAP PROVIDER (Bing Maps), STATION LOCATION (43.0943156 LAT, -79.0565025 LNG), CALENDAR SCROLL INTERVAL (10 SECONDS), SLIDESHOW SCROLL INTERVAL (18 SECONDS), INCIDENT POPUP TIME OUT (5 SECONDS), EMG POPUP TIME OUT (5 SECONDS), SCREEN TIMEOUT (30 MINUTES, ENABLED).
- Bottom Left:** INCIDENT POLLING (90 SECONDS, ENABLED).
- Bottom Center:** XMPP CHK, XMPP RESTART, XMPP EXIT, BACKUP, RESTORE.
- Bottom Right:** GET INCIDENTS, UPDATE, CLOSE STATION MANAGER buttons. Below them is the text 'Version: 1.0.0.0'.

Three red arrows point from the 'GET INCIDENTS', 'UPDATE', and 'CLOSE STATION MANAGER' buttons to callout boxes below the interface:

- Get Incident Button**
- Update**
- Close Station Manager**

- The “Get Incident Button” is used to check to see if you have received all or any missed incidents
- The “Update” Button will allow you to see if there are any new /updates version of the application. Follow the prompt for instructions.
- The “Close Station Manager” Button is use to close/quit the entire program.

Backup – This button will allow you to backup all incidents currently stored in your system. Upon clicking you will be prompted to choose a directory to save your incidents to. You should save all backups to the same place.

Restore – This button will allow you to restore your incidents from a previously backed up file. You will be prompted to choose a folder location. You may only back up from a folder that contains the incidents.xml file. Folders you want to choose will follow the format: “backup_stationmanager_db_YEAR_MONTH_DATE_HOUR_MINUTE_SECOND”, e.g. backup_stationmanager_db_2013_04_17_10_03_17. After selecting a correct folder you will be able to see the incidents you restored under the Incidents tab.

XMPP CHK – Check the current status of the XMPP connection.

XMPP RESET – Reset the XMPP connection.

XMPP EXIT – Close the XMPP connection.
